Geospatial Data Preservation Resource Center Development

[GDP HOME](#) [ABOUT THE PROJECT](#) [BROWSE BY RESOURCE TYPE](#) [ADVANCED SEARCH](#)

Welcome to the Geospatial Data Preservation Resource Center!

The Geospatial Data Preservation Resource Center (Phase 1 Release) is a new information resource and clearinghouse for communities interested in the preservation of geospatial data. The Resource Center aims to facilitate access to and usage of the range of information resources and tools now available to assist developers and managers of geospatial data and information in ensuring the long-term preservation of their valuable geospatial assets.

Search in title/description:

Topics:

- Access to experts
- Analysis
- Appraisal and selection of geospatial data for preservation
- Approaches
- Benefits
- Citation of geospatial data
- Commercial formats
- Community blog/wiki/forum for discussions
- Comparisons of preservation strategies
- Computer aided design (2d & 3d models)
- Conversion tools for geospatial data
- Cost models for preservation
- Creation
- Curation
- Data acquisition

Select a topic, then click Go. Press the control key while clicking to select or deselect additional topics.

National Digital Stewardship Alliance

NDSA | [NDSA Working Groups](#)

An outgrowth of the National Digital Information Infrastructure and Preservation Program (NDIIPP), the National Digital Stewardship Alliance (NDSA) is a collaborative effort among government agencies, educational institutions, non-profit organizations and businesses to preserve a distributed national digital collection for the benefit of citizens now and in the future.

Initial invitations to become a NDSA Founding Member were sent to existing NDIIPP partners. During the July 2010 NDIIPP Partners meeting, Founding Members were recognized.
